

## WONALANCET OUT DOOR CLUB

## SUMMER PROGRAM 1977

Saturday, July 16th  
Ferncroft Parking Lot  
8:30 A.M.

Field Experience

A morning trail maintenance training session under the guidance of Homer Emery of the Forest Service. As usual, this summer there will be opportunity and need for members' assistance on the trails and at shelters. Current thought is that this session should take place on Blueberry Ledge trail. Assemble at the Ferncroft Parking area at 8:30 A.M. Ted Sidley will bring the limited number of Club tools; one might bring axe, saw or pickaxe.

Wednesday, July 27th  
Chapel  
8:00 P.M.

Meeting

An educational-discussion meeting principally to discuss the White Mountain National Forest planning system and progress. Members have already participated in the Working Groups of the Kancamangus and Waterville Units plans. The Club will want to further its preparation for the Fall 1979 planning of the Wonalancet Unit Plan. Discussion of the previous adjacent area plans and local issues will facilitate this task. Other items which may be in order for this meeting are members' comment on summer work progress and a report on the Spring Brook timber sale cutting progress (work has been underway during the winter and spring and is visible.)

Wednesday, August 24th  
Chapel  
8:00 P.M.

Meeting

The Annual Meeting of the Club at the Chapel at 8:00 P.M.

## Notes:

1. There will be no further mailed notices this summer, an economy move. Meeting notices will be given to Mabel Hidden for her column in the Carroll County Independent.
2. WODC now maintains a panel at the kiosk at the Ferncroft Parking Area. Please give recommendations concerning the display to Ralph Weymouth, 323-8201.
3. The summer hiring program is still in formulation. The federally supported College Work Program hiring has not yet worked out but this effort continues.
4. There is much trail and shelter work to accomplish this summer. Winter blowdown was above average and only a few of our 38+ miles have been cleared yet. Also, there are reaches of our trails now requiring water-bars, bridging and stone steps. Volunteers for trail work are much wanted and should contact Ted Sidley. A few hours' effort on the trails are most rewarding to both trail and member.
5. WODC Contact points:
 

|                        |                                 |
|------------------------|---------------------------------|
| Martha Chandler        | 323-8024                        |
| Ted and Barbara Sidley | 323-8694                        |
| George Zink            | 323-8693                        |
| Ralph Weymouth         | 323-8201 (away until July 22nd) |
6. As always, your dues (\$3/person, \$5/family-covering children to age 18) are most welcome - as are contributions. Warm thanks go to those who responded to our previous appeal.
